the cast

Dr. Klein and Dr. MacHaggis are the heads of Project P.R.I.M.A.T.E. (Putting Really Intelligent Monkeys Among The Extraterrestrials)

Having lost their mothers to Project S.P.O.U.S.E.S. (Sending Pissed Off Ultra-feminists Screaming Endlessly Spaceward), **Lisa Klein and Jeff MacHaggis** were raised on the Sprocket Monkey Rocket compound.

Ping is the mission commander of Project P.R.I.M.A.T.E. He is also Jeff's best friend.

Not even cruel animal testing could separate **Pang and Pong**, Ping's monkey friends.

A. Businessman is just a passerby.

Huckster K. Monkey, our mysterious narrator, was last seen during the ill-fated Project A.C.R.O.N.Y.M.

Dawn of the Day Before the Time of the Land the Lost Dinosaurs Forgot to Remember

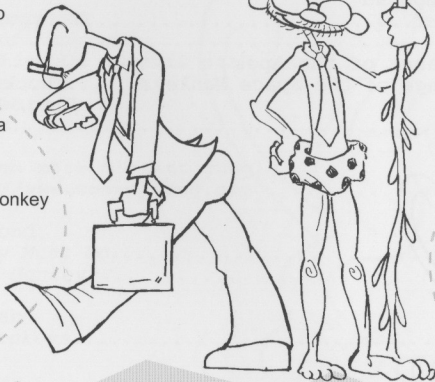

RAND and ADAM

Start jumping all up and
down and waving your arms
around

Chest-beating, parasite-eating,
letting your knuckles drag on the ground
Scratch simultaneously your head and
underarms
Multiple-mating, brachiating, hanging out
in monkey bars

Throw down your briefcase and your tie
Throw your arms up into the sky

You're gonna go
ape, you'll go
bananas,
monkeying
around
Anywhere I
want I'm a gorilla
I weigh 800
pounds
One million
typewriters a monkey
for every one

You'll be a
monkey's
uncle, there's a barrel let's
have some fun

We're gonna make a monkey out of you
We'll take you back to the dawn of the
day before the time of the land the lost
dinosaurs forgot to remember

Your wife and kids
and pets are
gonna be okay
We'll call and tell
your boss you
won't be in today
You're at the
dawn of the
day before the
time of the land
the lost
dinosaurs forgot
to remember

Me and My Monkey

JEFF

I'm sad, hurt bad
Fell from a tree and skinned my knee
The other kids made fun and it made me mad

But it doesn't matter to my monkey
It doesn't matter, he still wants to hang out with me

It doesn't matter to my monkey
If I can't climb a tree

Baghdad, insurgency in Chad
No one's to blame, it's just the same
From the fruited plain to Leningrad

But it doesn't matter to my monkey
He doesn't care, it's not his affair
Which way you lean politically
It doesn't matter to my monkey
My monkey and me

Monkey see but monkey don't care
And he's got the right idea

My dad is mad

He said he'd ground me if he found me
Trying to sneak you from the lab
But I was bad and now I'm glad
I set him free cause he shared with me
His chimpanzee philosophy
And this is what my monkey said to me:

PING

I know a little white man
Little White does the best he can
I am a big black man
Well, not really, but pretend I am
Little White and Big Black meet
As they go walking down the street
Black wants rights and White wants fights
No matter who you try to blame
You all look the same to me

JEFF

See, it doesn't matter to my monkey
He doesn't mind at all
If you mistakenly call him
A monkey instead of a chimpanzee
It doesn't matter to my monkey
As long as he's free

Not Me and My Monkey

JEFF

My monkey said I could stay out all night
I jumped around and I said, "All right!"

JEFF and PING

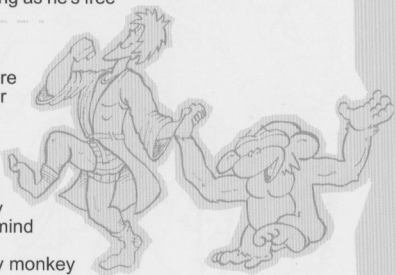

We took a Greyhound to the playground
Where we met a little girl at the slide

JEFF

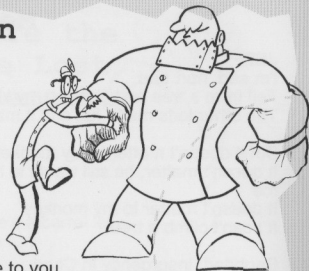

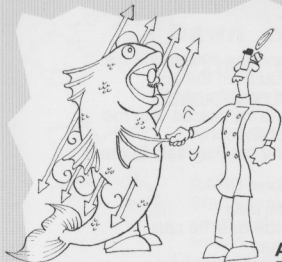

She cut in line every single time

I went over there
and I pulled her hair
And I said,
"No fair!" and
she said,
"You're 29!"
But me and my
monkey don't mind

Not me and my monkey

Curb Your Dogma

PING

I met a man the other day
And he told me:

A. BUSINESSMAN

I'm Rush Limbaugh's biggest fan
I think the Russians need a nuclear tan
Thank God I'm a man
That's all I've got to say

PING

But then he up and said
some more
He told me:

A. BUSINESSMAN

I hunt for animals
because it's fun
They won't let me shoot
them with my elephant gun
Hurray for Buchanan
I want to kill all the gays

PING

This is America, we
might not all agree
This is America, the
land of buy one get one
free
Hey mister
Curb your dogma
Shouldn't that thing be
on a leash?
Curb your dogma
Ain't it against the law
to let that thing run free?

This girl stormed in the
other day
She told me:

LISA

Big government's not
so bad
I need Big Brother
cause I don't have a
dad
Conservatism's a fad
It's gonna go away

PING

But when I pressed her
for some more
She told me:

LISA

I hate religious people
they're no fun
I'd shoot them all if I
believed in guns
I need an abortion
I think I might be gay

PING

This is America, we all
must do our part
This is America, be still
my bleeding heart
And that's when I told
her
Curb your dogma
Shouldn't that thing be
on a leash?
Curb your dogma
Ain't it against the law
to let that thing run free?

Run out and buy
yourself a new K-car
Join in the rat race, get
your share
See what it's like inside
of a gay bar
Maybe you'll find
some answers
in there

Look around at
the world
There are millions and
millions of people and
they're
all alone
Feelings get hurt
Everybody's so mean
and extreme there's no
in between

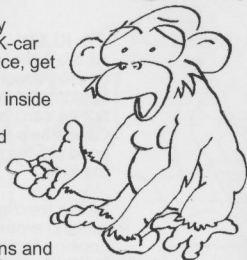

I saw my friend the
other day
He told me:

JEFF

I'm real concerned
about the Cola War
I'm working on a
screenplay about a
dinosaur
You got Nintendo 64
Can I come over and
play?

PING

And then he yawned
and said some more
He told me:

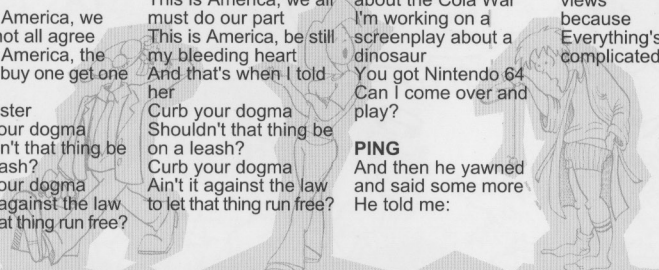

JEFF

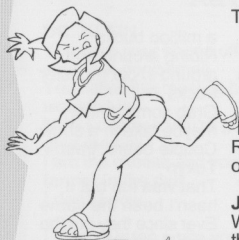

My boss is just no fun
I had to shoot him with
my pricing gun
You don't like Logan's
Run?
You are so gay

PING

This is America, we
watch MTV News
This is America, we
don't really have any
views
because
Everything's so
complicated

Beneath

BESIDES,
IT SHOULD BE
CALLED THE
HERSTO-RAY!

JEFF and PING

Dr. MacHaggis said it'd be okay
He said we'd both be normal by the end of the day
So we agreed to let him use his Histo-Ray on us
He said:

DR. MacHAGGIS

We've got to find out if the theory is true
If people came from monkeys or primordial goo
That's why I'm de-evolving your monkey and you

JEFF and PING

Main thrusters on, hard drive online

The raygun starts to smoke and shake
and crackle and whine
The doctor says:

DR. MacHAGGIS

Ready, on the count of one

JEFF and PING

We say, "What!?" and then he fires the raygun
We were bathed in a glow of crackling iridescent light
But before we changed, my girlfriend stormed in
She was mad cause I'd been out all night

JEFF

I said, "Honey, please Can't you see I'm down on my knees?
I was only out with my monkey
It was just my monkey and me"

She slowly narrowed her eyes and said:

LISA

You say the same thing every day
I'll show you and your monkey too

JEFF

And then she kicked the Histo-Ray
And it pointed down

JEFF and PING

The ray of light hit the floor
It wasn't hitting us anymore
And when that beam hit the ground
The crackling glow spread all around

People out on the streets looked up as lightning flashed and strange lights swirled
This was the day that the Histo-Ray would de-evolve the entire world

JEFF

So you better get down on your knees

PING

There's no more ATM fees

JEFF

You may as well throw down your keys

PING

There's no more aerosol cheese

JEFF

You may as well stop saying please

PING

No more philosophies

JEFF

We're going back to the trees

PING

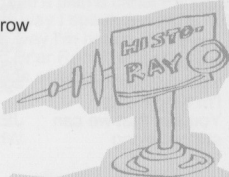

So come on, Socrates

JEFF

We're going back to the seas
We're going back to the dawn of the day before the time
Of the land the lost dinosaurs forgot to remember

PING

Not even the lost dinosaurs remembered not to forget
The land of the time that came after the day of which we're going back to the dawn

Song of Kong

JEFF

Don't say you didn't mean to piss me off

LISA

You put cat hair in my applesauce

JEFF

Don't say you didn't mean to cause me pain

LISA

You pushed me in front of a train

JEFF

And you trashed my house
And you smashed my mouth
And you slashed my tires
Set my hair on fire

Why do we still hang out together?

LISA

Maybe it's just cause we-

JEFF

Whatever
You're Godzilla and I'm King Kong
You say that we can still get along

But you're wrong
Come on, I'm King Kong

You didn't clean out the drain of the tub
Even though I asked you at least three times

LISA

I'm not the one who left it there
Aren't you the one with all the hair?
Besides you jumped up in the air and broke my spine

JEFF

And you don't care where you ignite my hair
I swear soon my chest will be bare
Why do we still hang out together?

LISA

My analyst says I sublimate displaced aggression when-

JEFF

Whatever

LISA

I'm Godzilla and you're King Kong
But that doesn't necessarily mean we can't get along
Don't you think you're coming on too strong?
I suppose the obvious question is why we'd even hang out at all

JEFF

Maybe it's karmā or fate or the fact that You're the only other one I know
Who's three hundred feet tall

LISA

Used to feel like

a million bucks
Riding around and around in our monster trucks
Grab some dinner, maybe take in a show
Couple beers, trash Tokyo
That was fun but it hasn't been the same
Ever since they put the word "versus" between our names

JEFF

You're probably wondering why we can't just both agree to disagree

LISA

Maybe it's due to the fact that I can't even once complete a sentence without you interrupting-

JEFF

Whatever
I'm the King

LISA

And I'm God

Rats Live On no evil star

DR. KLEIN

You take your shoes off but
your feet don't smell
You called this meeting but you
wouldn't tell
Now I can see you're gonna
give me hell
I am the cheese and you're the
farmer in the dell
I don't know

I sit and listen while you take
your turn
And then I try to tell you my
concern
That's when I see your face
begin to burn
I guess it's my fault
cause I never ever

learn
Here we go

Rats live on no evil star
Everything I say you hear the
other way
It's 1917 and I'm the Czar
A man a plan a canal Panama
The way I speak a word is not
the way I'm heard
You're the US, I'm the USSR

So now you're done and it's
my turn to speak
My words come slowly and my
voice is weak

Your body language
tells me I'm a geek
You kick my ass and
I just turn the other
cheek
I don't know

You really got me up
against a wall
I'm Humpty Dumpty and
you're my great fall
If you're Pelé I'm a
soccer ball
If you're an ax I'm the
apostle Paul
Here we go

Rats live on no evil star
It seems you're not at home
outside of palindrome
You're an eagle and I'm three
over par

A man a plan a canal

Panama
Looks like you've met your goal
you're in complete control
You're an entomologist and I'm
in a jar

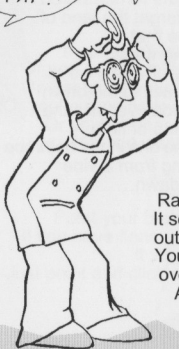

Now you're looking at me like
you're bored
My mouth is writing checks I
can't afford
If I'm a village you're a Mongol
hoard
If I was Kurgan you would be
MacLeod's sword
I don't know

I can't believe we even made
it this far
I say "Rats live on," you hear
"no evil star"
When it's all over you ask
where we are
My lips say no but my body
says, "ARRGGGHHHH!!"
Here we go

Rats live on no evil star
Everything I say you hear the
other way
You're Pete Townshend and
I'm a guitar
A man a plan a canal Panama
The way I speak a word is not
the way I'm heard
I'm Br'er Rabbit and you're
made of tar

KILL ME.
KILL ME
QUICKLY.

DID YOU
JUST CALL ME
FAT?

Escape

JEFF

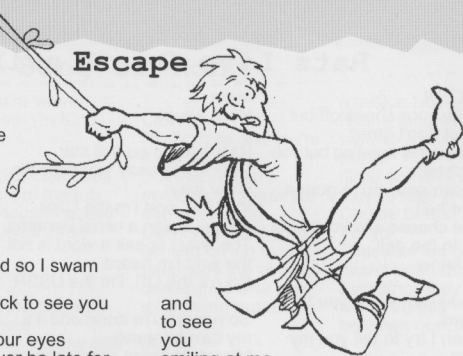

I overslept and missed the plane
That was gonna take me
back to see you
So I walked clear
downtown in the rain
But the train was derailed so I swam
then I sailed
But I failed to make it back to see you

You sighed and rolled your eyes
I lied and told you I'd never be late for
another date
That'd be great, that'd be great, but
we're in different states
I didn't see you roll your eyes cause I
never made it back to see you

So I went home and I borrowed
The keys to my dad's new time machine
He told me not to touch it he'd just had
it cleaned

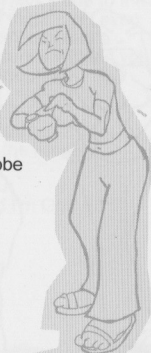

But I knew that if
I took it then I'd
have the means
To finally make it
back to see you

I set the controls for
yesterday
I thought the machine
would take that
literally
I expected to step out

and
to see
you
smiling at me
So when I opened up my eyes I was
surprised to see

I was at the dawn of the day before the
time of the land the lost dinosaurs
forgot to remember
Not even the lost
dinosaurs remembered
not to forget the land of
the time that
came right after
the day of which we're
going back to the dawn
And if you ever visit the
beginning of time
I'll be the one in the bathrobe
swinging from a vine
At the dawn...

Monkey Must Do

PING

I asked you to meet me at the water's edge
I came here to tell you the truth
But I can see in your eyes
You've already realized
That I'm leaving you

I wanted to thank you for my freedom, Jeff
But we knew that this time had to end
I'm the one trained for space
If I don't take my place
They're gonna send my friends

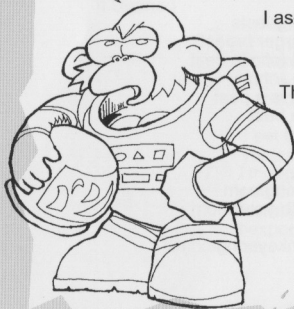

Soon I'll be gone
So you must be strong
I will go on as long as you remember me

So turn it into anger if you have to
Turn it into hatred if you need to
Whatever makes it easier
Whatever makes it seem a little bit less unfair
Whatever helps you understand that your best friend
Will not be back again

I asked you to meet me at the water's edge
I wanted to tell you the truth
Just look in my eyes
You'll see I have decided
There's some things a monkey must do

Goodbye

A MONKEY'S
GOTTA DO WHAT
A MONKEY'S
GOTTA DO.

Three Monkeys

JEFF

I wouldn't mind if you died
I couldn't care less if you weren't alive
Even if I tried

I never think about you all the time
You never cross my mind
And I don't talk about you 'till my friends
say
Why don't you shut up, shut up
I wish you would shut up, I wish you
would die
And I wouldn't mind

I wouldn't care if you weren't there
If you looked at me I wouldn't meet your
stare
Even if you dared

Even if you wanted me
I wouldn't be around for you to find
I wouldn't look for you or wait for you
Until the end of time
I don't care if you die
And I

Oh, I despise you
Words cannot describe how I despise
you

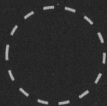

At least I wish I could despise you
It really shouldn't surprise you
Sticks and stones can break your bones
I wish I had some for you
Just for you

La la la, I can't hear you, I can't hear
you
I close my eyes so I can't see
But I still see you
I can't open my mouth without lying to
myself
I don't miss you everyday
I don't want you anyway
And I don't mind

I'm listening but I can't hear a word

La la la, hear no evil, speak no evil
I put out my eyes so I can't see
See your evil
And I can't stand up with three monkeys
on my back

I'm gonna be okay
You ain't gonna hear me say
That this one goes out to the one I love
For you

Two Monkeys

PANG

I see you
You don't see me but you
say you do
It's not true
I see you
You're right in front of
me

You say that you can
hear me and that's
good enough
But I don't quite believe
you
Cause there's all this stuff
for you to see
I can't believe you say that you don't mind
As long as we're together you say true love
must be

You hear me
I can't hear you but it has to be
Don't you see?
You hear me
I'm right next to you

I see your lips are moving but I hear no sound
I see you trip and fall and watch you hit the
ground
I say "As long as I can see you..." but it's just
my luck

Things are always hitting
me cause I can't hear
you say, "Duck!"

And when we met
Your friends said I was
the best looking yet
But you couldn't see
me
You can't see me

And we got along
Until you tried to sing
me a love song
And I couldn't hear you

I can't hear you

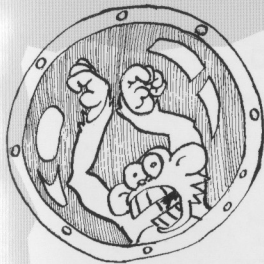

I touch you
And you touch me I guess that'll do
It has to
I smell you
And you smell me

I guess now that we are married and we have
a child
You can hear his laugh and I can see his smile
And as he grows you'll hear his first words and
I'll watch him crawl
I'm glad we named him Tommy,
I'll bet he'll play a mean pinball

One Monkey

HUCKSTER K. MONKEY
One Monkey!

DR. KLEIN

Preparing for final systems
check
I grip the mission ignition key
around my neck
Space monkey puts his
helmet on
Ten more seconds and he'll
be gone

DR. MacHAGGIS and DR. KLEIN

Little space monkey
Your finest hour is here
Brave little space monkey
I'm proud to hurl you
screaming through the
stratosphere

ALL THE SCIENTISTS

We've grown so close to you
Since we stole you from your
jungle home

DR. MacHAGGIS

You've been like a son, but
those days are done
Now you must go alone

Blastoff Monkey

ALL THE SCIENTISTS

Blast off little monkey
You were always too good
for this world

DR. KLEIN

You were the one we adored

DR. MacHAGGIS

You were the one we snuck
up on and hit with a board

ALL THE SCIENTISTS

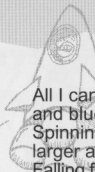

Screaming from the trees,
writing in the net
Screaming in the cage,
needle full of drugs
Sleeping on the plane,
waking up to find that your
training's begun
Rocket from the ground,
hurtle through the clouds
Orbit round the earth, soaring
past the moon
Aiming at the sun, what must
you be thinking as you
head for the stars

DR. MacHAGGIS

Space monkey, how I've
failed you

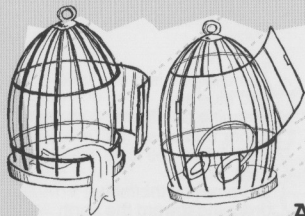

PING

Looking down at the world
Never thought I could be so
content and yet feel so
alone
My vision is blurred
I can't see any billboards or
dump trucks or industry

All I can see is green land
and blue sea
Spinning and looming much
larger and closer as I'm
Falling from the stars, roaring
past the sun
Plummet by the moon,
dropping toward the earth
Hurtle through the clouds, I
can see the ground
getting closer as I'm
Falling toward the seas, I can
see the trees
Falling toward my home, I
am all alone
Falling from the clouds, I can
see the crowds that are
gathered to-

No Monkeys

Animal Uprising

ALL THE MONKEYS

Animal uprising in the zoos and on the farms
They are knocking down the cages and barns
It's an animal uprising
Really quite surprising
This animal uprising

PONG

The cats and the dogs and the goldfish
Are staging a coup d'etat
There's a revolution in the pet store
Soon all will be canary law

ALL THE MONKEYS

It's an animal uprising
There is no disguising
This animal uprising

Animal uprising on the plains and in the homes
They are marching where they once just roamed
It's an animal uprising
By now we're all surmising
It's an animal uprising

PONG

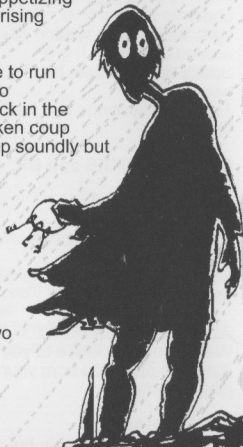

They're following the King of the Jungle
They line up just to hear his roar
He whips them into a frenzy
Even bats, rats, bugs, ducks, and
herbivores

ALL THE MONKEYS

It's an animal uprising
You're looking appetizing
It's an animal uprising

PANG

There's nowhere to run
and nothing to do
When you're stuck in the
middle of a chicken coup
You used to sleep soundly but
that was before
You found
yourself fighting
a gorilla war
Beware the
moles when
your secrets are
deep
And light up one
if by lamb and two
if by sheep

One Million Monkeys

HUCKSTER K. MONKEY and A. BUSINESSMAN
One million monkeys!

Gorilla City

**HUCKSTER K. MONKEY and
USED GORILLA SALESMEN**

We'll come on down to Gorilla City
We got all the gorillas you need
We got Gorilla Grodd and Solivar
And Beppo the Super Monkey
We got Congorilla and B'wana Beast
Every super powered monkey from the West to the East
Mssr. Malla and Djuba are both deceased
But we've got 'em here anyhow

If you come on down to Gorilla City
You know you're bound to stay for more than one night
We got Detective Chimp, Sam Simian
And the Ultrahumanite
We got Giganta and Titano
You know the kids are gonna bug you cause they just
gotta go
To the only hidden city with an invisible dome
Unless you count Atlantis and Kandor

Too Many Monkeys

JEFF
Too many monkeys!

Fascist Couplet

A. BUSINESSMAN and HUCKSTER K. MONKEY

And after all's been said and done
It doesn't benefit anyone
To gnash your teeth and weep and moan and cry

So smile at the fascist bourgeoisie
Deny your own autonomy
And put on a happy face until you die

Gorilla (gorilla)

JEFF

Well my girlfriend
and I went to the
zoo
On a Sunday
afternoon
Neither one of us
had been there
since we were
seven or eight
She had her
notebook and pen
she was all set
To work on her
Masters project
On the dating
routines of the
higher primates

She was studying
how the monkeys
live
From an arch-
feminist perspective
I was the
King of the
Jungle in
my mind

Well her theory was
that anything with
muscles that big
Had to be a sexist
pig
Even though
gorillas aren't pigs
they still can be
swine

Gorilla (gorilla), my
girlfriend explained
condescendingly
Gorilla (gorilla), this
is their genus and
their species
Gorilla (gorilla), yes,
that is their name
But I was thinking,
"Gorilla (gorilla), me
Tarzan, you Jane"

She was writing this
neat information
down

I was beating my
chest

making "ooh ooh"
sounds
Hanging upside
down off the gibbon
exhibit
She dropped her
notebook and put
her pen behind her
ear
And said in a voice
all the monkeys
could hear:

LISA

Young man, you get
down from that
cage this minute!

JEFF

I was feeding my
shoe to a marmoset
And my girlfriend
got real upset
She said:

LISA

I've only one thing
to say to you

JEFF

Paraphrasing two of
her books which still
sit on my shelves
Origin of Species
and Our Bodies,
Ourselves
She said:

LISA

Well I guess that

it's true: monkey
see, monkey do

JEFF

Gorilla (gorilla), is
what she said as
she walked out the
room

LISA

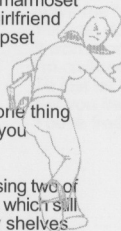

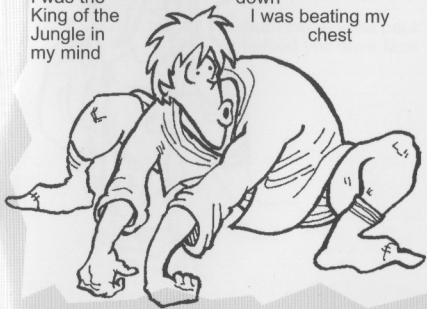

Gorilla (gorilla),
you're not a mandrill
or a big baboon
You're a Gorilla
(gorilla)

JEFF

That's not my name
But she called me
Gorilla (gorilla) just
the same
She called me
Gorilla (gorilla) but
then she changed
her mind

LISA

Cause I've never
seen a gorilla who
smoked or drank or
lied
And I thought you
were a gorilla, but
that isn't true
Cause I've never
seen a gorilla as
ugly as you

Animal

JEFF

You called me an animal
Said I deceived you
You said I'm not a man at all
And worse I believed you

They say that's what experience does
I guess you're sick of me
If I'm not who you thought that I was
Then tell me, who was he?

I knew all along
I could never be strong
I knew I wasn't wrong
But I still said I'm sorry

And so I am an animal
I suppose that it's no big deal
You can call me an animal
After all that's how you made me feel

Conquest

JEFF

I've been saving all your things
Since you left when I lost Ping
Against the hope the phone might ring
And it might happen to be you
Even just to tell me where to send them to

Textbooks, knick knacks
T-shirts, dish rack
Ticket stubs from the zoo
CDs, flatware
TV, cat hair
I was thinking of you

They say if you love something
just let it go
But that doesn't mean it's not hard
You said you were leaving and I held the door
Look where that's got me so far
Que sera

But I helped you pack and I helped you save face

I respected your wishes I respected your space
You said it's all very simple
But everything's so complicated
I wish we could go back to the dawn of the day before the time of the land the lost dinosaurs forgot to remember

And if I were a brave man
Some primitive caveman
I'd scream and rage to show you I care
But I've gotta act my own age
We don't live in the Stone Age
Can't drag you away by the hair

You won't let me fight for you
But pacifism bores you
Now where is that supposed to leave me?
You can do anything you want to
It won't come back to haunt you
I'm civilized-how like me
To just let you be
Set you free
You're free

Challenge of the Space Monkeys

HUCKSTER K. MONKEY

Step on up, enjoy the show
The coliseum's packed
and we're ready to go
Two space monkeys
vie
One will rule and one
will die
Only one monkey will
survive
Which one will it be:
Blip or Gleek?

Far corner, black mask
on his face
Blip's the invisi-belt
wearing, jetpack-
packing friend of
Space Ghost
He's got two other
friends named Jan and
Jace
He is fighting for control

of the whole
monkey
race
Face to
face

Gleek's in the other
corner, he doesn't
have lyrics yet
But we're gonna sing
'em anyway, that's the
way we are
He's got Superfriends,
Zan and Jayna,
Wondertwins
They will fight to help
this monkey win
Let the games begin

Gleek beats his chest
and bares his
teeth

Blip stands his ground
and glares at Gleek
Blip takes a moment to
introspect
Gleek sinks his teeth
deep into Blip's neck
That's when they both
look up and see

Ping the space the
monkey fall screaming
from the sky
Our little space
monkey was pretty
sure that he was just
about to die
But he fell right on top
of the other two
monkeys
Hitting them on the
head

He thought he
was dead
But he found out

instead
The other two
monkeys were dead
instead

ALL THE MONKEYS

So hats off to our
monkey
You were destined to
rule on this world
You are the one we
admire
Especially since Blip
and Gleek both were
consumed by the fire

HUCKSTER K. MONKEY

Swinging from the
trees, hanging out with
Jeff
Meeting Dr. Klein,
being de-evolved
Squinting at the helm,
what must you be
thinking as you head
for the stars
Circling round the sun,
roaring past the moon
Hurling toward the
ground, screaming
without sound
Breaking through the
clouds, you can see
the crowds that are
gathered to see
Space monkeys
fighting bravely

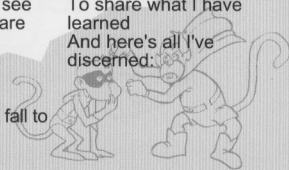

The monkeys all fall to

their knees
Abject on the ground
Ping's king now of all
that he sees
He decrees as he's
crowned:

PING

Looking down at my
world
Never thought I could
feel so content and yet
be so alone
My banner's unfurled
I have walked with the
humans and seen
many things
But now I have
returned
To share what I have
learned
And here's all I've
discerned:

In accordance with the wishes of the Orangutan Society of America (OSA), all references to orangutans, both positive and negative, have been removed from this project.

Things we already know:

1. Gorillas and monkeys and chimps and apes are not the same thing.
2. It should be "aitch tee tee pee colon slash slash."
3. Fascist couplet is, in fact, not a couplet, nor is it particularly fascist.
4. B'wana Beast is a homo sapien.
5. It's Beppo the Super-Chimp. (see number one.)
6. The answer, my friend, is not 17.4.

Only one monkey was harmed in the making of this album.

Special thanks to Randy Hoffman for writing the best couplet on this album. Can you tell which one it is? Submit your guess (along with booking requests, merchandise orders, gentle praise, or scathing letters of condemnation) to:
